

ENVIRONMENTAL POLICY

Hannanprint Victoria is a large web offset lithographic printing company which produces magazines, catalogues, inserts, newspapers and general printing. All employees at Hannanprint Victoria recognise that environmental protection is the responsibility of every individual. Our aim is to conduct our entire business with all due regard for the protection and enhancement of the environment whilst continually striving to prevent all aspects of pollution and waste. This policy has the full endorsement and total commitment of the Senior Management team at Hannanprint Victoria.

Accordingly; we will:-

- Implement and maintain the AS/NZS ISO 14001; Environmental Management System Standard that will enable HPV to document; monitor and review our environmental performance.
- Comply with all applicable local and national environmental laws, legislations and provisions, including all ethical, moral and legal and other requirements.
- Identify the environmental impacts of all aspects of our business and set targets and objectives to continually improve our environmental performance.
- Continually seek and improve environmental performance while focussing on reducing energy consumption and minimise or eliminating waste whenever technically and economically viable.
- Re-use and recycle wherever and whenever possible.
- Provide appropriate and timely environmental training and communication to our employees to support them in implementing this policy.
- Collaborate and communicate with our customers, suppliers and stakeholders (community, industry, government etc) to improve the protection of the environment.
